

Hik-Connect
Mobile Client
Datasheet
V5.0

Software Information

Name: Hik-Connect Mobile Client Software

Version: V5.0

System Requirement: Android 5.0 or later; iOS 10.0 or later

Introduction

Hik-Connect Mobile Client is designed for managing Hikvision devices, including DVRs, NVRs, network cameras, video intercom devices, and security control panels. With the Mobile Client, you can view real-time video or playback of your cameras via Wi-Fi or cellular network, and get notified when an event or alarm occurs.

The Mobile Client provides access to Hik-Partner Pro cloud services, through which the installation companies can help manage your devices. You can grant permissions to a Service Provider to allow the Service Provider to provide configuration and maintenance services for you.

Key Features

- Adding devices via scanning QR code
- Adding devices via IP/Domain
- Adding devices via Hik-Connect Domain

- Live View and Playback
- Two-way audio intercom
- Videos and pictures encryption
- PTZ control
- Digital zoom
- Instant alarm notifications with pictures and videos
- Updating device firmware remotely
- Answering calls from doorbells/video intercom devices
- Arming security control panel remotely
- Sharing devices to others
- Hik-Partner Pro cloud services
- Service Provider authorization management
- Device permission management
- ARC service
- Transferring devices to another account
- Device password reset

Functional Parameters

A	> Register a new account via email address or mobile phone number
	Account login and logout
	> Change account password
	> Reset account password
Account Management	Visitor mode
Widnagement	Login by fingerprint/facial authentication
	> Edit alias
	 Generate account QR code for device sharing
	> Delete account permanently
	> 1/4/9/12/16 window division
	> Audio control
	> Max. 8X digital zoom
	Capture and recording
	> Full-screen mode
Live View	> Two-way audio
Live view	> Change live view quality
	> Enable fisheye mode
	➤ Hardware decoding (Only supported by devices added via IP/Domain)
	> Noise reduction
	> Mirror mode
	> PTZ control
	> Control camera direction
PTZ	> Zoom in and out
	> Adjust PTZ speed

	Control focus and iris	
	> Set and call preset	
	Auto Scan (Device support required)	
	> Auto-Tracking (Device support required)	
	Search videos by time	
	Up to 4 channels of simultaneous playback	
	> 1 or 4 window division	
	> Control audio	
	Capture and recording	
Playback	Drag timeline to set playback start time	
Flayback	Adjust playback speed	
	Hardware decoding	
	Event playback	
	Download video footage from cloud	
	Play video footage from cloud	
	> Noise reduction	
	Add and delete devices	
	Supports adding the devices which support Hik-Connect service	
	(hereafter simplified as "Hik-Connect device" via Hik-Connect	
	domain or scanning QR code	
	Supports adding devices via IP/Domain	
	 Supports adding detected online devices which are in the same 	
	local area network with the phone or tablet	
	Edit device name and channel name	
	Display storage status and device version (for Hik-Connect Devices)	
	Enable/disable cloud storage service for cameras	
	 Detect device version and upgrade remotely 	
	 Videos and pictures encryption (for Hik-Connect Devices) 	
Device	Share channels to other accounts	
Management	Share devices to other accounts	
	 Unbind devices from other accounts with devices' password 	
	Reset device password	
	 Remote configuration 	
	Change device verification code	
	 Set DDNS (Only supported by devices added via Hik-Connect Domain 	
	or Scanning QR Code)	
	Add devices to Favorites	
	 Draw motion detection area for specific network cameras 	
	 Configure audio and strobe light alarm, light settings, PIR detection for 	
	Floodlight camera	
	 Record and set custom audio alarm for devices 	
Hik-Connect	Manage device authorization and Service Provider permission	
Cloud Service	 View the details of the Sites that you own, including site name, 	
0.00.00.00.000	view the details of the sites that you own, including site hame,	

- devices on the each Site, and information of the Service Provider who is managing the devices in a Site
- Authorize a Service Provider with more devices by adding them to a Site
- Edit device permissions granted to a Service Provider
- Cancel all authorizations of devices in a Site from the Service Provider
- Switch between multiple Service Providers
- Transfer all device in a Site to another Hik-Connect account
- Authorize/deauthorize Alarm Receiving Center (ARC) service for a Site
- Check and respond to cloud service notifications
 - Receive device handover applications from Service Provider
 - Receive device permission applications from Service Provider
 - Receive notifications about Service Provider cancels device authorization
 - Receive notifications about the device permissions released by Service Provider
 - Receive device transfer applications from other Hik-Connect users
 - Receive device offline notifications
 - Receive device password reset application
 - View history linkage, which refers to the process in which an event detected by a device triggers actions of other
 - View logs about Service Provider's operations on devices
- Check previously deauthorized devices
- View external linked videos, which refers to the video recorded by the linked device of the alarm-source
- Cloud features (Not available in all countries or regions.):
 - People Counting: Monitor the number of persons who have entered a specific area in real time. Set the maximum persons allowed to stay in the area.
 - Temperature Screening: Monitor the skin-surface temperature of the persons detected in the live view of temperature screening devices. Set a threshold temperature for triggering abnormal temperature alarm.
 - Cloud Attendance: Manage employee attendance. Or, as an employee, check attendance records and control doors
 - Cloud Storage: View event-related video footage which is recorded by Hik-ProConnect boxes or certain models of DVRs/NVRs and saved on the cloud. There are four types of cloud storage service available on Hik-Partner Pro Portal, and they are 7 day monthly, 7 day annually, 30 day monthly, and 30 day annually.

Alarm Notification

- Receive alarm (event) notifications
- View alarm (event) information, related pictures, and related videos

thermographic mode picture Supports two notification modes: "Receive Events and Push Notifications" and "Receive Events but Not Push Notifications" Fed notified on important alarms even in Do Not Disturb mode with Critical Alerts (IOS) Receive calls Remotely accept or decline calls (from doorbells) Video Intercom Video Intercom		(Thormal hinoculars) Vious alarm related entirel mode nicture and
